

INFOST 410-201 – Database Information Retrieval Systems
Semester: Summer 2016
Instructor: Kevin Trainor
Assignment: Final Project
Course Component: Final Project
Grading Rubric

Submission

Timeliness

Points	Description
29	Available points
0	On Time
-5	Late by 1 day or less.
-10	Late by 3 days or less.
-15	Late by 5 days or less.
-49	Late by more than 5 days
-49	Not submitted

Files Submitted

Points	Description
10	Available points
0	File submitted met all expectations
-2	Submitted more than 1 file.
-2	Submitted file that is not a proper .zip file.
-2	Submitted filename does not include student name.
-2	Names of zipped files are not appropriately descriptive.
-2	File types of zipped files are not appropriate (.sql).

Scripts

create database (create_www_database.sql)

Points	Description
23	Available points
0	Met all expectations
-5	Met nearly all expectations
-13	Met some expectations
-18	Met few expectations
-23	Did not meet any expectations
-23	Not submitted, submitted too late, did not produce a test database.

Phone List (phone_list.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Guide Roles List (guide_roles_list.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Employee Availability List (employee_availability_list.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Booking Summary (booking_summary.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Trip Roster (trip_roster.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Trip Detail Sheet (trip_detail_sheet.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Add a New Reservation (add_a_new_reservation.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Transfer an Existing Reservation to a Different Trip (transfer_a_reservation.sql)

Points	Description
2	Available points
0	Met all expectations
-2	Code does not successfully create a result set.
-1	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-2	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Delete a Reservation (delete_a_reservation.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Add a New Employee (add_a_new_employee.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Delete an Existing Employee (delete_an_existing_employee.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Add a New Trip (add_a_new_trip.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Delete an Existing Trip (cancel_trip.sql)

Points	Description
3	Available points
0	Met all expectations
-3	Code does not successfully create a result set.
-2	Code does not create the correct result set.
-1	While the code does create the correct result set, it contains bugs that would give wrong results with other test databases.
-1	While the code does create the correct result set, it contains coding practices that are not recommended or not necessary.
-3	Assignment not submitted, or assignment submitted too late, or this item not submitted.
-3	Not testable due to failing Create Database script.

Total Available Points = 100
