

Course Syllabus

Course Title

Project Management

Semester

Summer 2018

Course Number

IS590PMO

Instructor

Kevin Trainor

trainor1@illinois.edu

847-650-9706

Contacting the Instructor

The preferred method for contacting me is by entering a request using the Request Center portal for this course at

<https://askproftrainor.atlassian.net/servicedesk/customer/portal/15> . Implemented using JIRA Service Desk, this portal will allow you to submit questions and requests related to this course. Using this portal instead of regular email will help me to respond to your requests more quickly and to track them more effectively. PLEASE, DO NOT send requests to my regular email address.

On an emergency basis, you may contact me using my mobile phone number:
847-650-9706.

Online Lab Sessions

Every Tuesday evening from 7:30 PM to 8:30 PM, we will have an optional Online Lab Session using the Blackboard Collaborate Ultra platform. These sessions are a great opportunity to get help with your Team Project. Lab Sessions will take place in our normal Blackboard Collaborate Ultra classroom. Please use a headset.

Individual Meetings

While I will not be holding scheduled office hours, you can arrange an individual online meeting with me by submitting an *Individual Meeting Request* using the Request Center portal (see *Contacting the Instructor* above).

Catalog Description

Leaders who can effectively manage projects are needed in libraries, archives, museums, businesses and universities. This is a comprehensive course in project management for anyone who is serious about planning and managing successful projects. The course combines knowledge, tools and techniques that are common to managing successful projects in any field with insight into the special opportunities and challenges of managing projects in information-related fields. Traditional approaches to project management and more contemporary agile approaches to project management are both covered in depth.

Required Texts

Agile Project Management for Dummies, 2nd Edition
by Mark C. Layton & Steven J. Ostermiller
Copyright 2017, John Wiley & Sons
ISBN 978-1-119-40569-6 (pbk)
ISBN 978-1-119-40574-0 (ebk)
ISBN 978-1-119-40573-3 (ebk)

Schwalbe, K. (2015). *Information Technology Project Management* (8th ed.). Cengage Learning. **ISBN-10:** 1285452348, **ISBN-13:** 978-1285452340

Course Topics

- Modernizing Project Management
- Applying the Agile Manifesto and Principles
- Why Being Agile Works Better
- Agile Approaches
- Agile Environments in Action
- Agile Behaviors in Action
- Defining the Product Vision and Product Roadmap
- Planning Releases and Sprints
- Working Throughout the Day
- Showcasing Work, Inspecting, and Adapting
- Preparing for Release
- Introduction to Project Management
- The Project Management and Information Technology Context
- The Project Management Process Groups
- Project Integration Management
- Stakeholder Management
- Scope Management
- Time Management
- Cost Management
- Quality Management
- Human Resource Management
- Communications Management
- Risk Management
- Procurement Management

Course Objectives

- Understand the nature of projects and project management.
- Understand the differences in approach between agile project management and traditional project management.
- Understand the special requirements of managing project in the information field.
- Identify and explain the key elements of the five project management process groups.
- Identify and explain the key elements of the ten project management knowledge areas.
- Identify and explain the key elements of agile project management.
- Organize and conduct a small project as part of an agile project team.

Readings

Required readings are assigned for most class meetings. You are expected to do required readings before class.

Class Sessions

Most lectures have been recorded. So, LEEP Live Sessions will be devoted to discussion and group breakout activities. In most weeks, our class work will take up the entire 2.5-hour period allocated. Nevertheless, if we manage to cover our work in less time, then I will adjourn the class earlier.

Please get a headset and learn how to use it and Blackboard Collaborate Ultra features effectively. If you are not an experienced hand at this, then please attend one of the excellent sessions offered by the iSchool ITD group. In my experience, the ITD group goes above and beyond the call when helping students and faculty get ready to use these tools effectively. They have even been known to schedule individual sessions for those of us who were unable to make group sessions.

I like the text-based chat feature of our learning platform. Sometimes a short comment or a quick question is best communicated using chat. But, I will expect you to turn on your microphone and talk when the real discussion gets started. My experience is that there is not a great difference between discussions in online classes and face-to-face classes provided that we all try our best to use the online tools effectively. If the class does not get the benefit of your questions, comments, and stories, then this will not be the effective graduate-level course that you deserve. So, please try your best to get over any shyness that you may have regarding using your headset and share what you have to offer with the rest of us. ***We want to hear from each of you.***

Exams

There will be two final exams: One exam is on the Layton book; the other exam is on the Schwalbe book. Both will be multiple-choice exams administered using the Moodle quiz feature. Exams will be open-book, open-notes, and open Internet. I only ask that you do your own work and I expect you to conform to the University of Illinois policy on Academic Integrity (see below).

You will be allocated a generous amount of time for each attempt at the exam. You may make as many attempts as you wish. Your highest grade will be counted.

The exam on the Layton book will include approximately 40 questions. This exam activity will be open for 14 days.

The exam on the Schwalbe book will include approximately 100 questions. This exam activity will be open for 14 days.

Practice Quizzes

I have made practice quizzes available for each chapter of the Schwalbe book. These **practice quizzes are an optional course element**. I created them from the same question bank from which I created the exam. The purpose of the practice quizzes is to get a chance to practice this activity before the end of the semester. While the Moodle quiz feature will tell you your grade, this grade is not counted towards your grade in the course. Many students have found these helpful. Try them and decide for yourself.

I regret that there are no practice quizzes available for the content in the Layton book.

Team Project

We will be forming into teams over the first 3 weeks of the Course. Each team will be responsible for planning and conducting a project for a real client using Agile Project Management. Teams will be comprised of 3 (minimum) to 6 (maximum) students. Please see the Team Formation Forum on our Moodle site for more information about getting started at Team Formation.

The product or service delivered by each team will be different. I will be encouraging you to form teams from students with similar interests and career goals. More details regarding the project will be discussed during our first class.

Basis for Determining Grade

The various components of student work will contribute to the final grade based upon the following percentages:

- Exams: 40%
- Project Deliverables 50%
- Class & Group Contribution 10%

Letter grades will be determined as follows:

- A+ 97 - 100%;
- A 93 - 96%;
- A- 90 - 92%;
- B+ 87 - 89%;
- B 83 - 86%;
- B- 80 - 82%;
- C+ 77 - 79%;
- C 73 - 76%;
- C- 70 - 72%;
- D+ 67 - 69%;
- D 63 - 66%;
- D- 60 - 62%;
- F 0 - 59%;

Academic Integrity

Please review and reflect on the academic integrity policy of the University of Illinois, http://admin.illinois.edu/policy/code/article1_part4_1-401.html to which we subscribe. By turning in materials for review, you certify that all work presented is your own and has been done by you independently, or as a member of a designated group for group assignments.

When describing assignments in the syllabus or in other documents that provide the detailed requirements for one of your assignments, I have tried to be quite specific about the degree to which collaboration is encouraged and the degree to which you are expected to submit an original work of which you are the author. If you have any questions regarding the policy regarding a particular assignment, please contact me directly for advice.

Please be aware that the consequences of academic dishonesty will be severe. Students who violate university standards of academic integrity are subject to disciplinary action, including a reduced grade, failure in the course, and suspension or dismissal from the University.

Statement of Inclusion

<http://www.inclusiveillinois.illinois.edu/mission.html> As the state's premier public university, the University of Illinois at Urbana-Champaign's core mission is to serve the interests of the diverse people of the state of Illinois and beyond. The institution thus values inclusion and a pluralistic learning and research environment, one which we respect the varied perspectives and lived experiences of a diverse community and global workforce. We support diversity of worldviews, histories, and cultural knowledge across a range of social groups including race, ethnicity, gender identity, sexual orientation, abilities, economic class, religion, and their intersections.

Accessibility Statement

To obtain accessibility-related academic adjustments and/or auxiliary aids, students with disabilities must contact the course instructor and the Disability Resources and Educational Services (DRES) as soon as possible. To contact DRES you may visit 1207 S. Oak St., Champaign, call 333-4603 (V/TTY), or e-mail a message to disability@uiuc.edu.

Contact Hours

This course will require approximately 45 contact hours.
