

IS446 – Systems Analysis and Design

Instructor: Kevin Trainor

Assignment: User Interface Design Practice Assignment

Course Component: Skills Practice Assignments

Grading Rubric

Base Point Allocation

Base Points (23 available points)

Requirements

Assignment submitted on-time or within the allowable late period.

Percent Credit	Description
100	Meets all expectations.
0	Not submitted or submitted too late.

Submission

Timeliness (16 available points)

Requirements

Must be submitted by date and time indicated in the weekly schedule.

Percent Credit	Description
100	On Time
0	Late
0	Not submitted or submitted too late

Physical Submission (10 available points)

Requirements

Submit only 1 file.

The file submitted must be of type .PDF

The file submitted must follow the naming conventions indicated in the instructions document.

Percent Credit	Description
100	Meets all expectations.
50	Meets nearly all expectations.
0	Does not meet expectations.
0	Not submitted or submitted too late.

Exercise 1 (Regular)

Completeness (23 available content points)

Requirements

Must present a design for a system input, system output, or hybrid system input/output that is a recognizable part of a relevant use case scenario ("business use case" rather than "administrative use case").

Must include enough sample data such that the expected use of this input / output may be inferred from the content.

Percent Credit	Description
100	Meets all expectations.
90	Meets nearly all expectations.
75	Meets most expectations.
50	Meets some expectations.
25	Meets few expectations.
10	Meets nearly no expectations.
0	Meets no expectations.
0	Not submitted or submitted too late.

Technique (23 available content points)

Requirements

The design should have high usability in that it should make it easy for the user to accomplish the use case scenario.

The design should conform to good layout practices covered in the Spurrier & Topi text, lectures, and tutorials.

The design should conform to good typography practices covered in the Spurrier & Topi text, lectures, and tutorials.

The design should conform to good navigation practices covered in the Spurrier & Topi text, lectures, and tutorials.

Percent Credit	Description
100	Meets all expectations.
90	Meets nearly all expectations.
75	Meets most expectations.
50	Meets some expectations.
25	Meets few expectations.
10	Meets nearly no expectations.
0	Meets no expectations.
0	Not submitted or submitted too late.

Exercise 2 (Challenge)

Completeness (3 available content points)

Requirements

Must present a design for a system input, system output, or hybrid system input/output that is a recognizable part of a relevant use case scenario ("business use case" rather than "administrative use case").

Must include enough sample data such that the expected use of this input / output may be inferred from the content.

Percent Credit	Description
100	Meets all expectations.
90	Meets nearly all expectations.
75	Meets most expectations.
50	Meets some expectations.
25	Meets few expectations.
10	Meets nearly no expectations.
0	Meets no expectations.
0	Not submitted or submitted too late.

Total Available Points = 100

Please Note: This grading rubric allows for adjustments to be made to your content point score. The total number of content points available to be awarded on this assignment is 51. An adjustment of up to 36 content points may be made for submissions that have a low content point score and yet meet the following criteria: Assignment must be submitted on time. Work submitted must show good faith effort on all REGULAR EXERCISES. It is possible to qualify for the points adjustment without having submitted work on the CHALLENGE EXERCISE.
